

8 July 1975

MEMORANDUM FOR: Executive Officer, IC Staff  
SUBJECT: USIB/IHC Weekly Activities Report

I. NEW ITEMS

None

II. ON-GOING ACTIVITIES

1. CONTEXT ✓

A standard 23-inch CONRAC monitor has been selected to augment the conferencing capability of the CONTEXT system. On this monitor both the 64 and 80 character presentations were readable at 20 feet. Funds for the procurement of four monitors have been provided and we are informed that they will be in place in the system in about eight weeks.

Development of software programs and testing continue on STAT a daily basis. IHC / [redacted]

2. NIPS

Drafting continues on a revised submission of Annex D, Part I (Dissemination). Met with [redacted] and representatives of ICRS, EXSUBCOM, COMIREX and ICS to develop a new schedule for STAT NIPS. IHC / [redacted]

3. Imagery Dissemination in the Washington Area ✓

A meeting of the IHC Working Group on this subject was

STAT briefed by [redacted] CIA/OC, and [redacted] Special Study Group, S  
regarding the technical capabilities of the system, the current status  
of work, and factors bearing on the composition of the network.  
Technical changes suggested, if any, will be expected within a week.  
Composition of the network will require further discussion. Drafting of  
a report and recommendations to D/DCI/IC has begun. IHC/[redacted] S

STAT [redacted]  
III. STUDIES  
None  
IV. USIB/IRAC ACTIVITIES  
None

V. STAFF ACTIVITIES  
STAT 1. [redacted] attended a demonstration at ACS(I) of the Army's automated system for analysts which is named ASSIST. This is a less complex version of CIA's Project SAFE.  
STAT 2. [redacted] attended the briefing by General Pustay on the Tactical Fusion Center in Europe. Three of the four central issues of this major DoD program relate to computers, namely: multilevel security, development of software for system management, and standardization of data. All three are major problems which have not been resolved within the Intelligence Community.

STAT 3. [redacted] was briefed by representatives of Planning Research Corporation on current projects they are undertaking for DoD. These

included upgrading of NMIC, computer software programs for FTD analysts, and project PACER for SAC.

4. On behalf of the IHC, Mr. [redacted] participated in a meeting at the Pentagon on Intra Theatre Requirements. This involves the use of the Harris laser facsimile equipment to disseminate imagery among the various Theatres.

Chairman, IHC
